Our Methods

Cloaking Explained

Sites that make use of cloaking have two variations of their website, based on the IP address, one site gets displayed to online users and the other to search engine bots.

Websites scan and pick up IP addresses of search engine bots and send them to a different version of the website. Online users will get sent straight to the actual version of your website.

This is what allows us to run ads for your business.

Testimonials •

Working with HempHealth has been an absolute pleasure. They are approachable, responsive, and genuinely invested in my business, that's why we worked together for over 3 years. PPC has taken my store to new heights, driving a surge of targeted traffic and boosting conversions like never before. If you're an online dispensary owner looking to level up your marketing game, I can't recommend them enough.

Teddy from Pure Fresh Cannabis

We hit the jackpot using HempHealth for PPC. They've been an absolute game-changer for our online marijuana dispensary. They boosted our online visibility and brought a flood of new customers, but they also significantly grew our email list. This was our secret weapon and we are happy it worked out so well. 99

GET CUSTOMERS FROM GOOGLE

Our back-end technology allows you to promote any product across a multitude of websites or landing pages, regardless of the network they belong to. You no longer need to rely on intricate blog funnels or specific hemp sites. Now, you can effortlessly advertise your product on Google without any hassles.

CANNABIS EXPERTS

With an extensive track record of successfully overseeing paid media campaigns for renowned brands in the industry, Hemp Health emerges as the ideal marketing collaborator for brands operating in the cannabis sector. Our unique understanding of the market sets us apart as your go-to partner in this space.

01. Campaign Strategy

Once we've discussed the campaign goals HempHealth will develop the campaign strategy across suitable networks to achieve those goals. This strategy will include proposed offers, copy and the required spend.

02. Campaign Development

When campaign strategy is finalized development of ad creatives, ad accounts and copy begins. Hemphealth will also develop all required web pages.

03. Campaign Launch

Once all campaign assets have been approved it's time to launch the campaigns. From Strategy to Launch, the whole process usually takes from 1-2 weeks.

Case Studies

Objective & Results

This clients focus was email capturing. We ran separate ads to individual pages on the site so we could test what the high ticket items are. Oils, bud, edibles, concentrates, all pages were plausible to run ads to.

- 1. AOV \$100, 8% email capture, \$150k from \$10k of adspend in initial months.
- 2. Total Lifetime spend with client was \$220,000. Earnings from Google Ad campaigns were \$1,050,000
- 3. Total *email captures* from google campaigns was 62,000
